FT. LAUDERDALE, Fla. - July 7, 2021 - PRLog – Those who have cleaned a DPF with Heat are aware that after a few cleanings it may need to be replaced due to the ceramic filter cracking. The Cost for a new OEM replacement DPF runs from \$2,300 to over \$5,000. How many days can you afford to have your vehicle down?

Cobra Clean has only been available for approximately five years and has been successfully used to clean thousands of Diesel Particulate Filters. It works far better and lasts longer than additives that you add to fuel. School Districts from Florida to Texas use it on a regular basis. Transit Bus Companies and Municipalities across the USA use it to clean their DPF's EGR Valves and DOC Filters. Some have replaced using their expensive FSX Kilns and now use Cobra Clean.

Cleaning a DPF, EGR Valves or any part that has carbon on it is easy to clean. Simply submerge any filter in Cobra Clean for 24 hours, remove it and rinse the black carbon from the filter with water. It has been reported that a DPF cleaned with Cobra Clean has been cleaned 8 times and is still working after a million miles. Check out videos online; ECO Fuel Cobra Clean video.

Cobra Clean is a Biodegradable Non Toxic, Non Acidic cleaner that works like magic. School Districts in Texas also use it to restore the faded yellow paint on their yellow school buses. They spray it on let sit for a few minutes then wash it off with soap and water. No need to compound wax it then polish and wax. Simply wash after the faded paint is washed away and wax it. Many use it to clean their BBQ grills, after all it is Biodegradable.

The demand for this incredible cleaner almost doubles every month, if you need to clean a DPF or remove Carbon plan ahead and order this low cost DPF Carbon Cleaner today. Shipping may take 5 to 10 days, so plan ahead.
