Saving +/-10% in Fuel Counts - ROI +/-10 days on a large Diesel Transport Truck – ECO FuelMax

All Trucks manufactured by Freightliner, Peterbilt, Kenworth, International, Mack, Volvo, Western Star & more are all saving fuel and profiting, the magic word.

By: [ECO Fuel Systems, LLC](#)

WEST PALM BEACH, Fla. - Aug. 17, 2023 - PRLog -- After the USA manufacturer of the ECO Fuel System (Better Emissions) received an award from the US Department of Commerce calls and orders about saving fuel and reducing maintenance have been coming in like crazy.

The largest School District in Texas, Northside ISD with +/-1,000 Yellow School Buses is following the City of Antonio who has been using the ECO System on its Waste Trucks for +/-10 years. Soon the Northside fleet running the ECO-4 Fuel system will be saving millions of dollars annually for Taxpayers.

(866) 374-0002

Ecofuel

cases is less than 30 days.

The ECO works on the principle of Electrolysis/Electrostatic energy causing fuel to burn cleaner and more combustibile. It is successfully used by tens of thousands of vehicle owners in the USA. Foreign Countries: Mongolia, Uzbekistan, Brazil and many more have caught on. Truckers and all Internal Combustion Vehicles owners are losing money by not utilizing the ECOFuelMax and wasting fuel.

The Made in the USA ECO Fuel System has a NO RISK Money Back Guarantee BBB A+ Rated +/-15 years. To do your own test, want details, test results and see awards go online <https://ecofuelmax.com>, email or call and speak with a person.
