BOCA RATON, Fla. - May 12, 2021 - [PRLog](#) -- For years we have gotten use to lower fuel prices. Due to recent changes many things have changed and prices are rising fast. With the price of Diesel and Gasoline fuel rising daily Companies Individuals and Municipalities are facing new challenges. Consumers are not happy and feeling the pain of rising prices. What will the price of fuel or a piece of lumber be in 6 months? Since January 2021 those costs alone have risen +/-50%.

Transportation Managers and many County Administrators for years have refused to acknowledge that Carbon Pollution is an issue and ignore the impending fuel crisis and increases that Taxpayers will have to pay. Conversion to Electric vehicles is beneficial but will be very expensive and may take years to implement. There are proven solutions to reducing Pollution on existing vehicles 40% to over 70% on both personal and commercial vehicles we drive today.

Thank you to the tens of thousands who have taken action. For the many who are hesitating, the question is why? There are multiple ways to act, adding chemicals to fuel, Hydrogen or the easiest method is adding an inline fuel filter/enhancer, the ECOFuelMax solution.

The ECOFuelMax pollution solution is a No Chemical, No Maintenance low cost guaranteed No Risk opportunity. It works on the scientific principal of electrolysis on all fuel types. Certified testing laboratory results show that it can reduce Carbon Pollution and Diesel Particulates 40% to over 70%, it is CARB approved.

Both Diesel and Gasoline vehicles have shown to reduce fuel consumption 3% to over 15% while reducing the Carbon Pollution we inhale. The ECO Fuel System is a proven guaranteed opportunity for all fuel types. If for any reason a user is unhappy with reduced fuel consumption, increased power or increased sustainability they can return it for a full refund. The ECO Fuel System is a proven No Risk Guaranteed solution, BBB A+ rated product for over 10 years.

Join the tens of thousands of School Buses, Trucks, Heavy Equipment and Automobiles that have been successfully using the ECO's proven Pollution Solution to reduce Carbon Pollution and save money in maintenance expenses, downtime and fuel use.
