**BOCA RATON, Fla. - April 28, 2020 - PRLog** -- Over the last few years Municipalities that are concerned about Carbon Pollution have installed the ECOFUELMAX *Pollution Solution* on their Coach Buses. A very Smart Business move, saving \$3000+ per year.. No Chemicals, No Maintenance, a onrtime expense \$395.00, it can last 20+ years. By reducing a diesel motors Diesel Regeneration Cycles (REGENS) and Carbon Particulates +/- 70%, thousands of dollars have been saved annually per vehicle. ROI <20 days. Less DPF filter Cleaning (\$350), Replacement (\$2,300), Maintenance, Downtime and Fuel consumption. Tens of thousands of diesel Coach Buses and School Buses are proof that it works just ask, references available.

Independent Truckers and Trucking – Hauling Companies are amazed at the ECO's results. Initially, a majority of ECOFuelMax users had their doubts. In less than one month the few hundred dollars spent was more than recovered. Less dark smoke in older diesel motors and those without DPF filters. Those that check their ECM saw a considerable increase in hours between Regeneration Cycles (+/-70%). Goes to show less Carbon, less Pollution equals less REGENS. ROI 10-20 days, Guaranteed No Risk.

Passenger vehicles, a gasoline vehicle can reduce the release of Hydrocarbons and reduce fuel consumption as well. Example Chrysler 300 Before, City 15.6 MPG, After ECO installation City 19.5 MPG, Before, Highway 20 MPG, After ECO installation Highway 24 MPG. The ECOFueMax solution works on all motors, easy to install, no warranty issues. It only treats fuel, no motor modifications. Go Online for ECOFuelMax reports.

The time to act is NOW! The unfortunate restrictions we have been experiencing may be an awakening to demonstrate the need to be proactive to reduce Pollution. By utilizing a Government approved Testing Laboratories Certified results the Consumer or Government office can reduce operation/maintenance expenses and Pollution. NASA, Homeland Security and the US Army all use it. Earn money by reducing Carbon Pollution!

ECO Fuel Systems, LLC and its principals have been dedicated to reducing Pollution and increasing efficiency since 1999. Anyone interested in helping or is interested in learning more or taking a No Risk test call or go online <https://ecofuelmax.com>. Spread the word. GO GREEN – Burn Clean!
