

## **Pandemic Coronavirus what's next - Carbon Pollution Pandemic DIY Alternatives ECOFuelMax**

*As of today USA's total Corona Virus deaths has passed 80,000+. Scientists and Health Professionals estimate that 7,000,000 or more untimely deaths are caused by Carbon Pollution annually.*

**FT. LAUDERDALE, Fla. - May 11, 2020 - [PRLog](#)** -- The time to act is NOW. Carbon Pollution is a man made poison, Covid –19 is biological. Coronavirus is an immediate threat. With the Media's support of the shelter in place rulings have helped to save lives and reduce Pollution. Look around, the sky is blue and the air and our waterways are cleaner.

For years, Politicians and Municipalities until recently have refused to listen to scientific authorities. Citizen's health has been second to a prosperous economy. Cancers, breathing disorders and pollution related illnesses have been accepted. The time to Act is NOW, we the people need to act in a responsible way before it is too late and we destroy the air we need to live.

Several Government agencies like School Districts, Municipal Coach and Waste Departments have installed the guaranteed No Risk ECOFuelMax Pollution Solution, they have substantially reduced expenses. The ECOFuelMax Pollution Solution has been around for over 15 years. Customer results, the tens of thousands who have installed the low cost (\$395) ECO Solution have reduced maintenance expenses, a Transit Bus \$3,000+ annually, Heavy Equipment and Trucks can save (\$5,000/yr) as well. Unfortunately, our government is not allowed to endorse products. News, television and multiple references are available.

Why have County Commissioners and our elected officials refused to listen? Our Transportation Officials and Politicians have been busy paying for studies. The conversion to Electric or Natural Gas vehicles may take decades to implement. Some Scientists say we have less than 15-20 years, it may be too late by then.

We the People need to take action to reduce Hydrocarbons, spread the word. The ECOFuelMax solution via certified tests has shown to reduce Carbon Pollutants by 40% to 70%+ by helping fuel to burn more efficiently and cleaner without any chemicals or maintenance. There are no warranty issues, no motor modifications, it only treats fuel and can last 20+ years. A partial solution is better than no solution at all.

Those interested in learning more, call or email for certified reports, testimonials or to initiate a No Risk test on your vehicles go to <https://ECOFuelMax.com>. Its principals have been working to help reduce pollution since 1999. GO GREEN – Burn Clean.
