

Earth Day – Everyday should be Earth Day - Increase MPG by reducing Pollution! ECOFuelMax

Smart drivers both commercial and the Public are increasing MPG by reducing Carbon Pollution. For a few hundred dollars Pollution can be reduced 50%+ along with a fuel savings of 5% to over 15%. Depending on vehicle and driving habits.

By: [ECO Fuel Systems, LLC](#)

ALBANY, N.Y. - April 22, 2022 - PRLog – Politicians want to reduce Carbon Pollution 50% by 2030. Electric is their alternative choice. Government is aware and has been successfully using the ECOFuelMax (ECO Fuel System) for over 10 years on existing fuel types. A new vehicle is not required. Using the ECOFuelMax Pollution Solution we can reduce Carbon Pollution 50%+ Today!

Contact us by May1, 2022 for a special Earth Day Offering.

Our Government (Cities, NASA, Homeland Security, US Army, School District, etc.) Initially purchased the ECO Fuel System to reduce Black Smoke (Particulates) from Diesel fuel and to reduce Fuel Consumption. Why do Government leaders from the President down to local Municipal politicians choose to ignore what they have been successfully using for over 10 years?

The ECO Fuel System is a private sole source pollution conscience company that is not on the Stock exchange. Our mantra is to help the Public not make Politicians richer.

The ECO Fuel System works on the Scientific Principal of Electrolysis, No Chemicals, No Maintenance and it can last 20+ years, CARB Approved. It is currently being successfully used on tens of thousands of School and Transit Buses in the USA. Smart Transit and local Political leaders who want to reduce Maintenance Expenses, Downtime, Save Fuel and REDUCE Carbon Pollution (50%+ TODAY) use and endorse it as a easy to install low cost opportunity. More need to follow for the benefit of the Public.

The ECO Fuel System has caught on around the world; it is a simple easy to install solution to helping fuel burn cleaner and more efficiently, BBB A+ 10 + years.

Businesses, Municipalities and the public treat yourself this earth day to reducing Pollution and saving money. The ECO is only a few hundred dollars and has a 90 day No Risk Guarantee. For information or to schedule a test, go online (<https://ecofuelmax.com/>), call or email. GO GREEN Burn Clean!
