

Save Fuel Reduce REGEN Cycles Guaranteed – ECOFuelMax

Over the last month fuel prices have jumped over \$1.00 per gallon. There is a proven Guaranteed opportunity that can help you reduce maintenance expenses and fuel consumption.

By: [ECO Fuel Systems, LLC](#)

MIAMI - June 15, 2021 - PRLog -- Who doesn't want to reduce fuel consumption, Oil Companies and the Government. Oil Companies make money selling you fuel and the Government gets the taxes paid per gallon of fuel sold.

Over 15 years ago an ambitious inventor who wanted to reduce the black smoke released from School bus motors created a no chemical, no maintenance in-line fuel filter/enhancer that worked based on the scientific principal of electrolysis. His invention utilizing electrostatic energy made fuel burn cleaner and more efficiently. It successfully reduced the black smoke. In Texas the political leaders, school districts and the US Army showed interest. Today over 200 School Districts on over 30,000 Yellow School Buses in Texas along with multiple cities and law enforcement agencies have been successfully using it for over 10 years.

Independent Trucker, members of the American Trucking Association, the Florida Trucking Association and the National Truckers Association to name a few that have successfully utilized the ECO. An LTL or Delivery Truck's ROI is less than 14 day's. On a Transit Bus the ROI is less than 20 days. School Buses and Automobiles based on less driving the ROI is a few months. The overall benefit is the reduction of Greenhouse Gases, fuel savings and increased sustainability. Multiple Certified studies have already been completed, the ECO is available today!

Gasoline vehicle owners can save 3% to over 15% in fuel consumption, depending on how they drive. Diesel owners can reduce maintenance expenses and downtime by reducing Diesel Regeneration Cycles 40% to over 70%. Diesel owners have reported a reduction of fuel consumption by +/-10%, all this by reducing Carbon Pollution by making fuel burn cleaner.

The tens of thousands of gasoline and diesel motor owners who use it swear by the ECOFuelMax system. Trucking, Transit, Heavy Equipment and Automobile owners may not be aware of the ECO Fuel System that works by successfully reducing Hydrocarbons and Greenhouse Gases. The ECO Fuel System is not "Snake Oil" ask for references and read the reports online. Now you can start saving money and reducing Pollution today. It may be many years before electric vehicles are incorporated into our daily lives.

Any Municipality, Company or Individual can do a No Risk money back Guaranty, just ask. If for any reason anyone is unhappy return it for a refund. The ECO Fuel System has been BBB A+ Rated for over 10 years. For more information or to order a test go on-line <https://ecofuelmax.com> or call and speak with a human. GO GREEN-Burn Clean!
