

# Clean Diesel Particulate Filters DIY without Damaging Heat for \$85 – ECOFuelMax

For Years Diesel Owners have been fighting Carbon Particulates. Now You Can CLEAN your DPF's without damaging HEAT. You No Longer will need to replace them after 2-3- Cleanings

By: [ECO Fuel Systems, LLC](http://ecofuelmax.com)

DETROIT - July 26, 2024 - *PRLog* – DPF's are expensive (\$2000-\$3000/ea) that is why large Companies, Transit and School Systems are now cleaning their Carbon with Cobra Clean. It is a Biodegradable Non Toxic Non Acidic cleaner that melts Carbon or oxidized Paint without Damage. The Cost is low you can clean 6-8 DPF's for only \$400.00.

In 24 hours a DPF, DOC or EGR Valve can be cleaned in House for 75% less than sending them out to be cleaned in an oven (+/-1800°) for +/--\$500. Taking control and cleaning filters yourself is simple. No need for expensive equipment, a Tub large enough to submerge your

Filters is all that is needed.

866 374 0002

Fill the tub with Cobra Clean and submerge your filter(s). Let your DPF soak for 24 hours. Remove after 24 hours and rinse thoroughly with fresh water. You will witness melted black Carbon Particulates rinse out. After the water rinse is no longer black dry the filter, reinstall and your back on the Road.

For those who do a lot of stop and go driving your DPF may need to be cleaned or replaced more often, Cobra Clean will not damage a DPF and can be cleaned multiple times. \$85 per cleaning can save both individuals and companies with Diesel Trucks Thousands of dollars in replacement costs as well as Downtime.

For those who are interested in reducing Diesel REGEN's check out **ECOFuelMax** online. It is a patented No Chemical, No Maintenance inline Fuel Filter/Enhancer that for a low cost can reduce DPF Maintenance (+/-70%). It works on the principle of Electrostatic Energy causing fuel to burn more combustible and cleaner. Increased combustion reduces Fuel Consumption (+/-15%) and cleaner burning fuel reduces Pollution (+/-70%) and DPF Maintenance. The ROI on a Long Haul Truck is less than 20 days, a Gasoline Automobile a few months.

The ECO Fuel System is a BBB A+ product that has a 90 day No Risk Money Back guarantee. If you are unhappy for any reason return it undamaged for a refund within 90 days.

At ECO Fuel Systems, LLC we are proud to help our fellow Truckers and the Public save Money by reducing Pollution. Go Online (<https://ecofuelsystem.com/>) or Call for details or to schedule a No Risk Test.
