

# Reduce Fuel and EARN - Reducing Pollution Vivek Ramaswamy, Elon Musk, Doug Burgum, RFK Jr., Lee Zeldin, Chris Wright; Please Contact Me at – ECOFuel

Due to the difficulty in contacting our Future President Trump's Cabinet I had little choice but to try via a Release. Important Information Please REACH OUT. Whomever has the ability please share my request. I have had positive responses from President Trump's office and feel it would be best to share a life changing opportunity with our future leaders who would be in charge.

By: [ECO Fuel Systems, LLC](#)

**BOCA RATON, Fla. - Nov. 21, 2024 - PRL**og – The ECO Fuel System, LLC has the ECO Fuel System (Made in the USA) that will Reduce Carbon Pollution and Greenhouse Gases 40% to 70% or more on existing Fossil Fueled vehicles, See the [White Paper](#) Report by the developer of the DPF and Catalytic Converters.

My name is Cary, CEO and Warehouse Distributor for ECO Fuel Systems, LLC. I am 100% in favor of the goals of the upcoming Trump administration. Especially, Lee Zeldin future director of the EPA, was instructed to reduce Pollution and earn from it. No Problem, I have just that opportunity and would like to assist and share valuable helpful information that is available to work **TODAY!**

Getting to the point wouldn't President Trumps Cabinet and all leaders of the USA's, Government Agencies, Trucking as well as the Public. Citizens are interested in a low cost opportunity to reduce Fuel Consumption; Pollution-Greenhouse Gases. For years everyone has been pointing fingers and looking to place blame about the environment. President Trump wants to have the cleanest air. +/-70% of Carbon Pollution comes from Automobiles and Trucking in the USA. How about considering a USA made proven solution to reduce it +/-70% more? The ECO Fuel System is CARB Approved BBB A+ low cost product that has a short ROI.

I am aware that incoming President Trump is going to overturn or remove the Pollution Reduction Act and other costly legislations. The current focus is Electric Vehicles which are great and beneficial to a limit. Why wait, Reducing the Carbon Footprint by 2030 when we can do it TODAY on fossil fueled vehicles and save Taxpayers money.

The "Today's Solution" is a patented inline Guaranteed Fuel Filter/Enhancer that works utilizing the principal of Electrolysis. No Chemicals, No Maintenance, it can last 20+ years. For a onetime expense of Hundreds of Dollars, not Billions or Trillions of Dollars current School Districts, Municipal Transit, [US Border Patrol/Homeland Security](#), NASA, Trucking the Public who use it has proven it works. Reduce Pollution TODAY and Earn from it.

Those that read this take part, those who have connection to the parties requested please pass it on. For details GO Online (<https://ecofuelmax.com/>), Email or Call ASAP
