

SAVE FUEL - The Word is OUT –Reduce MAINTENANCE - Texas Trucking – ECOFuelMax

June's Texas Trucking Show was a Huge Success! Thousands of Trucker's learned how to Reduce Expenses saving Thousands of Dollars per Month. No Motor Modifications, No Computer Chips and No Additives.

By: [ECO Fuel Systems, LLC](#)

HOUSTON - July 11, 2024 - PRLog -- The ECOFuelMax website has recent information and details. It is an Easy Installation: it only treats Fuel using a Patented Electrolysis/Electrostatic method.

Diesel Fuel on average only burns +/-55%, the rest ends up clogging Diesel Particulate Filter's (DPF). The ECO Fuel System is an inline Fuel Filter/Enhancer, No motor Modifications, No Warranty Issues. As Fuel passes through the ECO it increases Vapor Pressure causing it to Burn more combustable and cleaner ([How it Works](#)). It works on all types of Fuel (Diesel, Gas, CNG, Propane and Biodiesel).

Who doesn't want to burn cleaner Fuel that can reduce DPF Maintenance +/-70%, Downtime and save +/- 10% in Fuel? How about reducing Greenhouse Gases +/-70% and surpassing the 2030 50% reduction. References, Certified Testing and CARB Approval as well as recent test results on a [2022 Kenworth with a Cummins CX15 550 HP motor](#). It reduced Fuel Consumption more than 10% and REGEN Cycles +/-92%. (Particulates) Less REGEN Cycles, Less DPF Maintenance & Downtime, Save Money!

Since 2000 the principals have been researching and improving methods of helping the Consumer. All ECO's have a No Risk Guarantee. If for any reason anyone is unhappy return it for a refund within 90 days.

Since Diesel Trucking is a primary method of supplying goods, Truckers have an opportunity to help reduce Inflation by reducing Fuel Consumption and Downtime.
