

Trucking - Law Enforcement & Foreign Governments want to Save Fuel & REDUCE POLLUTION – ECOFuelMax

A primary cause of inflation has been the rise in Fuel Costs (+/-50%). The United States Leaders have allocated Trillions of Tax Dollars for future Pollution Reduction. Can we afford to wait 25 Years?

By: [ECO Fuel Systems, LLC](#)

ATLANTA - Oct. 31, 2023 - PRLog – Despite being aware of low cost Pollution and Fuel Savings products the USA use it but, doesn't share Low Cost opportunities like the ECOFuelMax Pollution Solution (aka ECO Fuel System). The tens of thousands who use it claim it is either politics or financial. This opportunity is made in the USA, NOT China.

States like Texas have been successfully using the ECO Fuel System for over 10 years. School Districts (200++) want their children to be able to breathe +/-70% cleaner air on their Buses, as well as saving the State Multi Millions of Dollars annually. Several Government agencies both State and Federal have tested and continue to use the ECOFuelMax Pollution Solution. They want the Public to go Electric. Why not do both until Electric is perfected?

Agencies like [School Districts](#), [Law Enforcement](#) to [NASA](#), [U.S. Border Patrol – Homeland Security](#) and Foreign Countries like Mongolia have tested investigated, approved and are using the ECO Fuel System, Today throughout their Country.

Red Kenworth

[Long Haul Truckers](#) and their companies save thousands of dollars by increasing MPG and reducing maintenance like REGEN Cycles and DEF use. I works immediately!

The ECO Fuel Systems is a Low Cost Guaranteed BBB A+ opportunity that can reduce Carbon Pollution/Particulates & Greenhouse Gases 40% to over 70%. It can last 20+ years, call for pricing. What diesel Owner wouldn't want to reduce [REGEN Cycles \(+/-70%\)](#) and DEF (+/-40%) use while increasing Fuel Efficiency +/-10%?

The ECO works on the principal of Electrolysis/Electrostatic Energy. It increases the Reid Vapor Pressure in all fuels causing it to burn cleaner and more efficiently omitting +/-70% less pollution. Go online and See [HOW it WORKS](#). The ROI on a Commercial Diesel Truck or Municipal Transit Bus is less than 20 days. Automobiles can increase MPG (+/-15%) and Horsepower (+/-15 HP).

Until Electric vehicles can travel longer distances and are affordable the ECO Fuel System is available today. Why aren't our leaders helping to inform the Public and Corporations of a Proven, Patented, No Risk Guaranteed opportunity that will reduce Pollution TODAY while helping Taxpayers save money?

It is past time for our Government to adapt to proven opportunities that can help the Public save money without any motor modifications or warranty issues, it is easy to install and only treats fuel. See who uses it as well as multiple Certified Testing results.

For information go [Online](#) for references and Certified Reports or call and speak to a human.
